

MIRAE ASSET INDIA MID CAP EQUITY FUND

Share Class I in USD

INVESTMENT OBJECTIVE

The primary objective of Mirae Asset India Mid Cap Equity Fund is to achieve long term growth in the share price through capital appreciation, measured in US Dollars, of the underlying equity portfolio. The Investment Managers will seek to achieve the objective of the Fund by investing mainly in equities and equity related securities of mid cap companies domiciled in or exercising a large portion of their economic activity in India. The Fund may also, on an ancillary basis, invest in equities and equity-related securities of small and large cap companies that are either domiciled, or exercise a large portion of their economic activity, in India, as well as other eligible securities that are considered appropriate by the Investment Managers such as units and shares of UCITS and/or UCI, including exchange traded funds, and financial derivative instruments including, but not limited to, index futures and options.

RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get will depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the Fund's Prospectus available at am.miraeasset.eu.

The Fund does not include any protection from future market performance so you could lose some or all of your investment.

Please refer to the Prospectus and the PRIIPS KID/UCITS KIID for further information on the risk of investment in the Fund. The Fund is actively managed and references the benchmark by seeking to outperform it. There are no restrictions on the extent to which the Fund's portfolio may deviate from the benchmark. ©2025 Morningstar. All Rights Reserved. Subscription, redemption and switching fees are the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out. Source: FactSet, Bloomberg and Mirae Asset Global Investments, data as of 30 November 2025. All performance numbers are net of fees, NAV in USD, and with dividends reinvested. Market capitalisation definition refers to: Large Cap refers to top 100 companies by market capitalisation in India; Mid Cap refers to top 101 - 500 companies by market capitalisation in India; Small Cap refers to 501 or below by market cap in India. The benchmark is a gross return index that includes reinvestment of dividends/income. This share class was dormant from 31 January 2018 to 21 February 2018; hence the fund price and benchmark value during this period remained static.
