RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get will depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the Fund's Prospectus available at am.miraeasset.eu.

The Fund does not include any protection from future market performance so you could lose some or all of your investment.

Please refer to the Prospectus and the PRIIPS KID/UCITS KIID for further information on the risk of investment in the Fund. The Fund is actively managed and references the benchmark by seeking to outperform it. There are no restrictions on the extent to which the Fund's portfolio may deviate from the benchmark. ©2025 Morningstar. All Rights Reserved. Past performance is no guarantee of future results. For subscription details, please refer to the "Fees, Charges and Expenses" section of the Prospectus for a more detailed description of the charges. Subscription, redemption and switching fees are the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out. Source: FactSet, Bloomberg, KOSPI and Mirae Asset Global Investments, data as of 31 December 2025. All performance numbers are net of fees, NAV to NAV, in USD, and with dividends reinvested. The benchmark is a price return index that includes reinvestment of dividends/income.
